**"SELF MEDICATION- RISK OF
USING OTC DRUGS
WITHOUT PRESCRIBING"**

Programme schedule

14.06.2023

ORGANIZED BY:

Education & Beyond

PYDAH COLLEGE OF PHARMACY

(Approved by PCI, AICTE and Affiliated to Andhra University, VSKP)
Kakinada-Yanam Road, PATAVALA-533461, E.G.Dist. A.P.

VENUE : SEMINAR HALL

PYDAH COLLEGE OF PHARMACY

(Approved by PCI, AICTE and Affiliated to Andhra University, VSKP)
Kakinada-Yanam Road, PATAVALA-533461, E.G.Dist. A.P.

ABOUT THE COLLEGE :

Pydah College of Pharmacy is yet another Jewel in the Crown of Pydah Educational Group and it was established in 2007. The Institute came into existence to extend the rich experience of Pydah group in education to the field of Professional Education. The Basic Objective in the establishment of "Pydah College of Pharmacy", Kakinada is to nurture "A Promising Agency of Technological & Innovative Development"

COURSES OFFERED

- B.Pharmacy (4 Years)
- M.Pharmacy
- Pharmaceutical Analysis
- Pharmaceutical Q.A
- Pharmaceutics
- Pharm.D
- Pharm.D (PB)

OBJECTIVE OF THE PROGRAMME :

Self-medication provides convenient access to medications without the need for a prescription or medical consultation. Without a medical consultation, individuals may misdiagnose their condition, leading to inappropriate treatment. OTC medications can cause adverse reactions, such as allergic reactions, gastrointestinal problems, or interactions with other medications. Carefully read and follow the instructions on the label. Consult a healthcare professional before taking any OTC medication, especially if you have a chronic medical condition or take prescription medications.

TOPICS OF THE PROGRAMME :

- ★ Definition of self-medication
- ★ Prevalence of self-medication
- ★ Importance of safe use of OTC medications
- ★ Risks of Self-Medication
- ★ Common OTC Medications and Their Risks
- ★ Strategies for Safe Self-Medication

OUT COME OF THE PROGRAMME :

Recap of the risks of self-medication. Importance of safe use of OTC medications. Call to action for responsible self-medication practices. Adverse outcomes which includes adverse reactions, overdose. Health consequences which worsening of underlying conditions, development of complications. Economic consequences will be increased healthcare costs, lost productivity. Social consequences are reduced social functioning, strained relationships.

Artificial Intelligence & Machine learning in Drug Discovery *

Programme schedule

23-08-2023

Organized by:

Education & Beyond

PYDAH COLLEGE OF PHARMACY

(Approved by PCI, AICTE and Affiliated to Andhra University, VSKP)
Kakinada-Yarram Road, PATAVALA, KAKINADA-533461, E.G. Dist, A.P.

Venue: Seminar Hall

PYDAH COLLEGE OF PHARMACY

(Approved by PCI, AICTE and Affiliated to Andhra University, VSKP)
Kakinada-Yarram Road, PATAVALA-533461, E.G. Dist, A.P.

ABOUT COLLEGE

Pydah College of Pharmacy is yet another Jewel in the Crown of Pydah Educational Group and it was established in 2007. The Institute came into existence to extend the rich experience of Pydah group in education to the field of Professional Education. The Basic Objective in the establishment of "Pydah College of Pharmacy", Kakinada is to nurture "A Promising Agency of Technological & Innovative Development"

Courses Offered:

- B.Pharmacy (4 Years)
- M.Pharmacy
- Pharmaceutical Analysis
- Pharmaceutical Q.A
- Pharmaceutics
- Pharm.D
- Pharm.D (PB)

OBJECTIVE OF THE PROGRAMME

AI and ML can rapidly analyze large amounts of data, identify patterns, and make predictions, thereby accelerating the drug discovery process. It helps to identify the most effective compounds and optimize their chemical structures, leading to improved drug efficacy.

TOPICS OF THE PROGRAMME

- * Data sources and integration
- * Target identification and validation
- * Supervised and unsupervised learning
- * Regression, classification, and clustering
- * Clinical trial design and patient stratification

OUTCOME OF THE PROGRAMME

- AI and ML can lead to better patient outcomes by identifying the most effective treatments and minimizing adverse effects. AI and ML can optimize clinical trial design, patient selection, and outcome prediction.

Program Report

Name of the Event:	"Artificial intelligence And Machine Learning in Drug Discovery".
Resource Person	Dr. B. KIRAN KUMAR, PROFESSOR, PHARMACEUTICAL ANALYSIS SRIVENKATESWARA COLLEGE OF PHARMACY, SRIKAKULAM.
Date of Activity	23-08-2023
Organized By :	Pydah College of Pharmacy
Venue:	Pydah College of Pharmacy

Objective of the Program:

AI and ML can rapidly analyze large amounts of data, identify patterns, and make predictions, thereby accelerating the drug discovery process. It helps to identify the most effective compounds and optimize their chemical structures, leading to improved drug efficacy.

AI and ML can help identify novel targets for drug development by analyzing large amounts of genomic and proteomic data. AI and ML can help optimize lead compounds by predicting their pharmacokinetic and pharmacodynamic properties.

Topic covered:

- ✓ Supervised and unsupervised learning
- ✓ Regression, classification, and clustering
- ✓ Data sources and integration
- ✓ Data preprocessing and feature engineering
- ✓ Target identification and validation
- ✓ Lead compound identification and optimization
- ✓ Text mining and information extraction
- ✓ Sentiment analysis and opinion mining
- ✓ Entity recognition and normalization
- ✓ Clinical trial design and patient stratification

PYDAH COLLEGE OF PHARMACY

(Approved by PCI, AICTE and Affiliated to Andhra University, VSKP)
Kakinada-Yanam Road, PATAVALA-533461, E.O. Dist, A.P.

About the College

Pydah College of Pharmacy is yet another Jewel in the Crown of Pydah Educational Group and it was established in 2007. The Institute came into existence to extend the rich experience of Pydah group in education to the field of Professional Education. The Basic Objective in the establishment of "Pydah College of Pharmacy", Kakinada is to nurture "A Promising Agency of Technological & Innovative Development"

:- Courses Offered :-

- B.Pharmacy (4 Years)
- M.Pharmacy
- Pharmaceutical Analysis
- Pharmaceutical Q.A
- Pharmaceutics
- Pharm.D
- Pharm.D (PB)

Objective of the Programme

To identify new or unknown adverse drug reactions (ADRs) and safety issues. Evaluate the risk-benefit profile of medications and assess the severity and frequency of ADRs. Implement strategies to prevent or minimize the occurrence of ADRs. Develop and implement risk minimization measures to reduce the impact of ADRs. Identify new or unknown adverse drug reactions (ADRs) and safety issues.

Topics of the Programme

- Definition and Importance
- ADRs Reporting
- ADRs Causality Assessment
- ADRs Severity and Frequency
- ADRs Prevention and Management

PRINCIPAL
Pydah College of Pharmacy
PATAVALA KAKINADA

Outcome of the Programme

Effective pharmacovigilance practices lead to a decrease in ADRs, resulting in improved patient safety. Pharmacovigilance promotes the safe use of medications, reducing the risk of medication errors and ADRs.

Pharmacovigilance ensures compliance with regulatory requirements, such as reporting ADRs and conducting regular safety audits. Pharmacovigilance promotes transparency and accountability in the reporting of ADRs, ensuring that safety issues are addressed promptly.

PYDAH COLLEGE OF PHARMACY

(Approved by PCI, AICTE and Affiliated to Andhra University, VSKP)
Kakinada-Yanam Road, PATAVALA-533461, E.G. Dist, A.P.

About College

Pydah College of Pharmacy is yet another Jewel in the Crown of Pydah Educational Group and it was established in 2007. The Institute came into existence to extend the rich experience of Pydah group in education to the field of Professional Education. The Basic Objective in the establishment of "Pydah College of Pharmacy", Kakinada is to nurture "A Promising Agency of Technological & Innovative Development"

Courses Offered :

- B.Pharmacy (4 Years)
- M.Pharmacy
- Pharmaceutical Analysis
- Pharmaceutical Q.A
- Pharmaceutics
- Pharm.D
- Pharm.D (PB)

Objectives of the Programme

To identify novel chemical structures with potential therapeutic benefits. Modify existing drugs to enhance their efficacy, safety, and pharmacokinetic properties. Design drugs that specifically target disease-causing proteins or pathways. Improve the absorption, distribution, metabolism, and excretion (ADME) properties of lead compounds. Increase the therapeutic efficacy and potency of lead compounds. Minimize the toxicity and side effects of lead compounds.

Topics of the Programme

- ◆ Introduction to Drug Design and Synthesis
- ◆ Synthetic Chemistry Methods
- ◆ Drug Target Identification and Validation
- ◆ Principles of Drug Design
- ◆ Lead Compound Identification and Optimization

Outcome of the Programme

- Identification of novel chemical structures with potential therapeutic benefits. Creation of new drugs that can be used to treat various diseases and conditions. Modification of existing drugs to enhance their efficacy, safety, and pharmacokinetic properties. Development of new drugs that can improve human health and quality of life. Economic Benefits Generation of economic benefits, such as job creation and revenue growth, through the development and commercialization of new drugs. Contribution to the advancement of medical research and the development of new treatments for various diseases and conditions.

Program Report

Name of the Event:	Design And Synthesis of Novel Drugs
Resource Person	Dr. B.K.SWATHI PRIYA, HOD, ASSOCIATE PROFESSOR, SRINIVASA RAO COLLEGE OF PHARMACY, VISHAKAPATNAM
Date of Activity	04-10-2023
Organized By:	Pydah College of Pharmacy
Venue:	Pydah College of Pharmacy

Objective of the Programme:

To identify novel chemical structures with potential therapeutic benefits. Modify existing drugs to enhance their efficacy, safety, and pharmacokinetic properties. Design drugs that specifically target disease-causing proteins or pathways. Improve the absorption, distribution, metabolism, and excretion (ADME) properties of lead compounds. Increase the therapeutic efficacy and potency of lead compounds. Minimize the toxicity and side effects of lead compounds.

Topic covered:

- ✓ Introduction to Drug Design and Synthesis
- ✓ Principles of Drug Design
- ✓ Drug Target Identification and Validation
- ✓ Lead Compound Identification and Optimization
- ✓ Synthetic Chemistry Methods
- ✓ Green chemistry and sustainable synthesis methods.

ABOUT COLLEGE

Pydah College of Pharmacy is yet another Jewel in the Crown of Pydah Educational Group and it was established in 2007. The Institute came into existence to extend the rich experience of Pydah group in education to the field of Professional Education. The Basic Objective in the establishment of 'Pydah College of Pharmacy', Kakinada is to nurture 'A Promising Agency of Technological & Innovative Development'

Courses Offered:

- B.Pharmacy (4 Years)
- M.Pharmacy
- Pharmaceutical Analysis
- Pharmaceutical Q.A
- Pharmaceutics
- Pharm.D
- Pharm.D (PB)

OBJECTIVE OF THE PROGRAMME

Protecting Public Health is the fundamental goal. By identifying, assessing, and mitigating potential risks, drug safety efforts aim to prevent adverse drug reactions (ADRs) and ensure that medications are as safe as possible for patients. Improving Patient Outcomes: Minimizing risks associated with medications can lead to better health outcomes for patients.

TOPICS OF THE PROGRAMME

- ▼ Pharmacovigilance
- ▼ Risk Management Planning
- ▼ Regulatory Compliance
- ▼ Communication and Education
- ▼ Technology and Innovation

PRINCIPAL
Pydah College of Pharmacy
PATAVALA, KAKINADA

OUTCOME OF THE PROGRAMME

Reduced Adverse Drug Reactions (ADRs) by proactively identifying and mitigating risks, drug safety efforts aim to significantly reduce the occurrence of serious and life-threatening ADRs. Minimizing side effects and other safety concerns can improve the overall treatment experience for patients, leading to better adherence to medication regimens and improved quality of life. By achieving these outcomes, drug safety and risk management play a crucial role in protecting public health, improving patient care, and ensuring the safe and effective use of medications.

OBJECTIVE OF THE PROGRAMME

The objective is to advance the state of art in technology by pushing the boundaries of scientific knowledge and emerging capabilities. This involves developing new materials, processes, algorithms, and systems that can lead to breakthrough innovations. R&D is to translate research findings into commercial products, services or processes.

TOPICS OF THE PROGRAMME

- Artificial Intelligence & machine learning
- Biotechnology and genetic engineering
- Clean energy and sustainable technologies
- Quantum computing & Quantum technologies
- Advanced materials & nano technology
- Robotics & autonomous systems

P. Lakshmi Devi
Program Coordinator

Outcome of Program:

The outcomes of R&D in emerging technologies have transformative effects on society, economy, and the environment, shaping the future trajectory of human civilization. It is essential to leverage these outcomes responsibly and ethically to maximize their benefits while minimizing potential risks and negative impacts. R&D in emerging technologies often leads to the development of innovative products and services that offer new functionalities, improve efficiency and enhance user experience.

Students and faculties have participated in the seminar on **R&D IN EMERGING TECHNOLOGIES** on 29-12-2023.

Program Report

Name of the Event:	R&D IN EMERGING TECHNOLOGIES.
Resource Person:	Dr. BEEBA JOHN, PROFESSOR, JSS COLLEGE OF PHARMACY, NOIDA.
Date of Activity	29.12.2023
Organized By:	Pydah College of Pharmacy
Venue:	Pydah College of Pharmacy

Objective of the Program:

The objective is to advance the state-of-the-art in technology by pushing the boundaries of scientific knowledge and engineering capabilities. This involves developing new materials, processes, algorithms, and systems that can lead to breakthrough innovations. R&D is to translate research findings into commercial products, services or processes.

Topic covered:

- Artificial Intelligence (AI) and Machine Learning (ML)
- Biotechnology and Genetic Engineering
- Clean Energy and Sustainable Technologies
- Quantum Computing and Quantum Technologies
- Advanced Materials and Nanotechnology
- Robotics and Autonomous Systems.

ABOUT COLLEGE

Pydah College of Pharmacy is yet another Jewel in the Crown of Pydah Educational Group and it was established in 2007. The Institute came into existence to extend the rich experience of Pydah group in education to the field of Professional Education. The Basic Objective in the establishment of "Pydah College of Pharmacy", Kakinada is to nurture "A Promising Agency of Technological & Innovative Development"

Courses Offered:

- B.Pharmacy (4 Years)
- M.Pharmacy
Pharmaceutics
Pharmaceutical Analysis
Pharmaceutical Q.A
- Pharm.D
- Pharm.D (PB)

OBJECTIVE OF THE PROGRAMME

Foster a strong, trusting relationship between the mentor and entrepreneur. Offer valuable advice, support, and guidance to help entrepreneurs navigate challenges. Enhance entrepreneurs' skills and knowledge in areas such as leadership, marketing, and finance. Provide emotional support and encouragement to help entrepreneurs manage stress and stay motivated. Facilitate the sharing of experiences, best practices, and industry insights between mentors and entrepreneurs.

OUTCOME OF THE PROGRAMME

- Entrepreneurs gain confidence in their abilities and decision-making. Entrepreneurs develop essential skills, such as leadership, marketing, and financial management. Entrepreneurs experience significant business growth, including increased revenue and market share. By focusing on building strong relationships, mentorship programs can drive these outcomes, empowering entrepreneurs to achieve success and create lasting impact.

TOPICS OF THE PROGRAMME

- ☆ Introduction to Mentorship in Entrepreneurship
- ☆ Active Listening and Feedback
- ☆ Business Planning and Strategy
- ☆ Marketing and Sales Strategies
- ☆ Effective Communication Strategies
- ☆ Establishing Trust and Rapport
- ☆ Benefits of Mentorship for Entrepreneurs
